This is a six-week book study/class using May McCarthy's book Path to Wealth. We live in an abundant and prosperous world. Learn the seven-step daily practice based on universal principles you can use to create a true wealth partnership with Life. Open yourself up to experiencing a complete shift in your thinking about how abundance is already living in you and how it can be awakened in your life. Join us in-person and via Zoom for a hybrid experience. This is not a CSL certified class.
